**OFF RESERVATION TRUST LAND NAMES**  
1-1000 - 1000th Avenue

Where international, state, county, and/or MCD/CD boundaries coincide, the map shows the boundary symbol for only the highest ranking of those boundaries.

Geographic area names are followed by either their FIPS or census code.

1. A " " following an MCD name denotes a line MCD. A " " following a place name denotes that place. MCD names with the water name and FIPS code on the place name are used to identify the place.

2. Place label color corresponds to the place FIPS code.

3. Census tracts are identified by an up to four digit integer number and may have an optional one digit suffix for example 25 or 407E. The census tract codes consist of six digits with an implied decimal between the fourth and fifth digits corresponding to the four-digit tract number, four with leading zeros, and trailing zeros for census tracts without a suffix. The tract number combinations would have codes of 00000 and 99999, respectively.

Due to space limitations, water and names, along with other names and geographic names on the map, may not be shown.

All legal boundaries and names are as of January 1, 2020. The boundaries shown on this map are for Census purposes and are not intended to be used for other purposes. Their depiction and designation for statistical purposes does not constitute a determination of jurisdictional authority or rights of ownership or entitlement.
